

RENTAL CAR CHECKLIST

The National Safety Council wants all drivers to stay safe on the road. Before you drive off in a rental car, familiarize yourself with its safety features and locate the most commonly used functions. Put away all hand held devices. Spending a few seconds getting to know your vehicle before you drive off can help keep you safe. Together we can all end roadway injuries and deaths.

features in your rental car*

NATIONAL
SAFETY
MONTH **2018**

Before driving away in a car...

Learn how to:

- Start the engine
 - Activate the headlights and wipers
 - Raise and lower the windows
 - Turn on the heat, defrost and/or air conditioning
 - Use the radio and other controls
-

Check:

- Are the mirrors and seats properly adjusted?
 - Are there any warning lights on?
 - Is the gas tank full?
 - Which safety features are included in the car?
 - Using the GPS? Program it before you drive.
-
